

S'MORE NEWS

April 25

2018

As we kick off our 23rd season, it is a time of firsts. We have handed over the Activity responsibilities to Lisa F21 and Julie F24. They have a lot planned with more to come. You will notice they have been busy already in the lodge, rearranging and decorating. I love the transformation. I have to mention the dreaded activity storeroom that has a life of it's own as the previous seasons progressed going from organized to utter chaos. There is no doubt it will be kept in its current orderly state!

Tim is bringing back the wildflower field. I'm very excited about that!

They should do very well being pollinated by the inhabitants of the 10 beehives there with 15 more to come. You will

occasionally see the beekeepers in their safety suits checking on them.

Coming up for June in keeping with the bees, we will buy 33 caterpillars and monitor their progression into beautiful butterflies for release in June.

One thousand feet of vinyl fence has been purchased for along the front

by 113.

Another first, please welcome, not only our new seasonals but Dykon Blasting group to the park. Normally, our policy doesn't allow you to work full time from the park but since the natural gas pipeline has begun in our area, campsites are just about non-existent. Since these guys are desperate, they have been allowed in for this season only. You probably won't see them very much, they work very hard and long hours. They won't be used to our park, so please, cut them a break.

2018 BHHP ACTIVITIES
